## Third Grade Newsletter

November 2014

### What are we learning?

#### Language Arts

This month in language arts we will continue with the adventures of Charlotte's Web. We have completed chapter 7, 8, 9 and we will continue to journal and summarize the next chapters in our book. In regard to writing, we have completed our unit on writing a narrative in Spanish. We will now begin with descriptive writing which will be done in both, Spanish and English

#### Mathematics

##### **Module 3: Multiplication and Division**

In math we have been learning about measurement including volume. Based on kilograms and liters and the frequent use of a number line. Please be aware that math is now in English and the homework will be in English as well. Beginning next trimester, we will once again switch to math in Spanish. This module will deal with multiplication and division with different units.

#### Science

We continue to wind down and finish with our unit on adaptations. We will also work on the life cycle of different animals and continue to work on the in-class project of adaptations. We visited the University of California Riverside's Botanical Gardens and also had a tour of the university. Students were engaged and enjoyed our field trip. Thank you again to all the parents that were chaperones.

### *Fast News!*

- Character of the month: Honesty
- Look for information coming up on the Thanksgiving food drive

### Subject-Related Material

#### Language Arts

Continue reading to/ with your child:

At the end of the story ask questions about the story.

Make sure you listen to your child read aloud

#### Multiplication

Continue practicing multiplication tables.

In November, students should be completing 6, 7 and 8

#### Parent-Teacher Conferences:

Please remember to attend your child's conference on time and on the day you were scheduled, since there are multiple conferences in one day. If you have any questions please contact your child's teacher.

### Fall is here
