

7th Annual Science Fair Expo

The Riverside County Office of Education is proud to announce the seventh annual Science Fair Expo. The intent of the Expo is to support our students with their research projects. Workshops will be available for science fair coordinators, teachers, parents, and students. These workshops are centered on topics specific to the nature of scientific study, engineering, society for science public programs, and other topics related to K-12 science of engineering projects. Hear from students who will present their winning research projects as well as share insight from their experiences. Completing a research project is ideal for implementation of the scientific or engineering practices as well as the California Common Core Science Literacy Standards. Scientists and engineers will be available to consult with parents, teachers, and students regarding the research process.

Contact us to ask how you or your organization can sponsor a booth, provide awards, or make a donation to sponsor students for the Intel International Science and Engineering Fair (Intel ISEF).

Who should attend: Science fair coordinators, K-5 teachers, science teachers, parents, and students.

DATE: Saturday, October 4, 2014

LOCATION: Riverside County Office of Education
