

Arrowhead United Way STEM Program Scholarship 2016

Arrowhead United Way in collaboration with Kids That Code, Inc. will award scholarships to select students to attend an amazing Kids That Code Program at Cal State San Bernardino

- A limited number of students will be selected from each participating school
- Open to students in grades 5th—8th
- The Arrowhead United Way scholarship will pay for the \$124.99 program fee
- A non-refundable \$15 reservation fee will be required from each student selected for the scholarship
- Parents must submit an application online and provide a response to the statement "How my child will benefit from receiving the Arrowhead United Way STEM Program scholarship"
- Judges will determine winners according to the best responses
- Complete rules available online at KidsThatCode.org

Participating school: NSAA

Course name: Introduction to Electronics with Arduino

Arduino is a credit card sized mini computer that can be used to teach programming and electronics. Students can create amazing interactive objects and projects with sensors that can control lights, motors, and much more. The basis for electrical engineering. This is a great class for kids who are curious on how and why electronics work.

Dates: Every Saturday, Oct. 29 thru Nov. 19

Times: 1: 00 pm—2:30 pm

Location: Cal State San Bernardino

Deadline to apply is Friday, September 2, 2016

Apply online at www.bit.do/kidsthatcode
